Eager to leverage my newly acquired skill-set to tackle challenging projects that push my boundaries on a daily basis. Adept at collaborating with clients and teams to deliver high-quality products. Excited to contribute my strong teamwork and problem-solving abilities to drive innovation and success in the tech industry.

Skills

Programming Languages: Javascript, Python
Web Development: HTML, CSS3, Node.js, Express.js, React, Bootstrap, Tailwind, JQuery
Databases: MySQL, MongoDB, GraphQL
Tools: Git, Visual Studio, Insomnia, MongoDBCompass

Projects

Google Inventory Feed:
- **Tech**: Javascript, NodeJS, React, TailwindCSS, DaisyUI, Papaparse, Json2CSV
- **About**: An inventory management system developed for Aero Mobility to seamlessly upload and update their vehicle inventory on their Google page. The system utilizes CSV files, which are transferred and processed via SFTP for efficient data handling.
- **Link**: github
- **Deployed**: Site

Vehicle CSV Feed:
- **Tech**: Python, Paramiko
- **About**: This tool simplifies the Google Inventory Feed process by enabling users to add vehicles via an interactive command prompt. It prompts for essential vehicle details and automates SFTP uploads, streamlining inventory management with ease
- **Link**: github

AeroMobility Social Links:
- **Tech: Javascript, React, TailwindCSS, Github Pages**
- **About:** A centralized platform for Aero Mobility clients, accessible via a bio link or QR code, that seamlessly directs users to a curated collection of essential links. These include the company website, social media profiles, and any other relevant resources, providing a convenient one-stop destination for information and engagement.
- **Link**: github
- **Deployed**: Site

TCG Discord Bot:
- **Tech**: Javascript, PokemonTCGSDK API, Mongoose, Discord.js
- **About**: This bot is part of a personal project that simulates a Pokémon TCG booster pack opening experience for Discord users, utilizing a Pokémon TCG API. It integrates with a Discord TCG Collection Website to log user data, including collected cards and total collection value.
- **Link**: github

TCG Collection Site:
- **Tech**: Javascript, MongoDB, Mongoose, Express, React, NodeJS, TailwindCSS, DaisyUI, Graphql, Bcrypt
- **About:** This website is the backend component of the Discord Bot Application, designed to store and manage data from user-opened booster packs. Users can view their collections, add cards to a favorites list, and explore detailed information about the contents of each booster pack.
- **Link**: github
- **Deployed**: Site

Education

University of California, Irvine Division of Continuing Education | Irvine, CA
FullStack Web Developer Certification
Graduated June 2023

Experience

Social Media Manager:
Aero Mobility | Anaheim, CA   *August 2024 - Current*
Managing and overseeing all of Aero Mobility's social media presence across multiple
platforms, including Facebook, Instagram, TikTok, Blue Sky, YouTube, Google, and others. This
includes creating content, engaging with followers, and ensuring a consistent brand voice to
drive engagement and growth
  - Creating engaging and polished videos tailored for all social media platforms to enhance
    Aero Mobility's online presence.
  - Implementing strategies to expand Aero Mobility's visibility and reach across digital
    platforms.
  - Actively responding to comments, direct messages, and inquiries to foster relationships
    with potential clients and followers.
  - Developing and implementing small-scale programs or tools to streamline processes
    and improve productivity.

Freelance Audio Engineer: *November 2017 - Current*
California Sound Studios | Lake Forest, CA
Engaged in close collaboration with clients, guiding them through the recording process for
their personal projects. Coordinated seamlessly with producers to ensure the final product
was polished and ready for public consumption.
  - Facilitated collaborative sessions with clients to develop and deliver high-quality
    products tailored to their preferences.
  - Executed setup and optimized microphone placement and signal flow for recording
    sessions.
  - Engaged in proactive communication with clients and producers to provide project
    updates and strategic guidance
  - Utilized Pro Tools as the primary Digital Audio Workstation (DAW) for precise mixing.
  - Resolved technical errors arising from recording hardware or session crashes with .
    Cultivated enduring client relationships to foster opportunities for future business
    ventures.

Assistant Team Leader: *June 2016-November 2024*
Whole Foods Market | Newport Beach, CA
  Led and empowered a team of nine individuals to deliver exceptional customer service while
exhibiting expertise in artisanal cheeses and wines. Demonstrated strong focus on monitoring
key metrics, generating financial reports, and successfully executing monthly merchandising
promotions as directed by coordinators and store leadership.
  - Generated weekly financial reports for store leadership, providing valuable insights for
    strategic decision-making.
  - Coached and onboarded new team members, equipping them with essential tools and
    knowledge for success in the department.
  - Monitored key metrics vigilantly, promptly addressing any performance issues and

devising actionable plans for improvement.
- Streamlined operations by supporting the team leader, enabling them to concentrate on departmental priorities.
- Enforced company procedures and safety standards, ensuring staff compliance and a secure work environment.
- Demonstrated leadership principles by actively participating in regular team member duties, setting a positive example for the entire team.
